

## **How to send a pedal to Barber Electronics**

1. Please call or email in advance to discuss sending a pedal in for return, mod or repair. 717-630-9797 [david@barberelectronics.com](mailto:david@barberelectronics.com)
2. Use a full size sheet of printer paper 8.5"x11"
3. Type, or print from a computer your return address, phone number and email.
4. On the same piece of paper, type a brief description of the reason the pedal has been sent to Barber Electronics, explain the problem or ask for a MOD or return (whichever applies).

It is very important that you do not hand-write this letter, and equally important that you do not use a small piece of paper (do not use note pad, business card or a half sheet of paper). Following the directions will get faster results, with less chance for error. Payments for shipping or repairs are accepted via paypal.

### **Our address is:**

Barber Electronics  
5 Summit Rd.  
York, PA 17403
